

**ONE SIZE DOES NOT
FIT ALL IN MEDICINE**

You are unique, have your own personal needs and respond to medicines in your own way. You deserve custom medicine.

Mass produced medicines can be good for many, but aren't right for everyone.

Not every dermatologic medicine will work the same for you as it will for another person.¹

Mass produced medicines may come with ingredients you don't need and in formulations that are not ideal for you.¹

Kayal Dermatology &
SKIN CANCER SPECIALISTS

Our custom medicines are created with you in mind.

Custom medications are an alternative to **one-size-fits-most** medicines that may not be right for you.¹

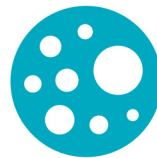

Our custom medications have removed many potentially bothersome **“inactive” ingredients** from your prescriptions.¹

We've even adjusted how **our medicine is delivered** including creams, gels, ointments, lotions, foams, balms and washes to better suit your needs.¹

We ensure our medicines have the active ingredients you need without the inactive ingredients you don't.

93% of medications contain known **allergens or irritants.**^{2,3}

50%-99%

Amount of **inactive ingredients** in most medicines.²

Almost **1/2 of Americans** report having sensitive or very **sensitive skin.**⁴

We are committed to providing each patient with quality medicines to meet their needs.

We customize our medicines to:

- ▶ **Alter potency** or combinations of active medicines
- ▶ Modify or eliminate **inactive ingredients**
- ▶ **Change the vehicle** including creams, gels, ointments, lotions, foams, balms and washes

We partner with Sincerus, an FDA-registered 503B Outsourcing Facility to ensure you receive the quality medicine you deserve.

Medicines are serious business. Know what you are **putting on your skin.**
